

ACA open enrollment opened on November 1st. Locally, the process to enroll will be streamlined. The changes that will be taking place will be discussed at this month's Medical Case Management Training. The County is waiting on the State ADAP to determine preferred Marketplace plans.

The PPG and PPCG just met in Tampa for two days. A list of insurance carriers for the Part A programs to consider was provided by the ADAP program. Comments are due back to ADAP by Friday with the expectation that the list of viable insurances will be available next week.

- *Part B Update*

Marlen Meizoso

Mrs. Meizoso presented the Part B Report. The Part B report stated that the following Part B contract is active for the contract period April 1, 2016 to March 31, 2017: SFAN ADAP (copy on file). SFAN ADAP served 185 clients in September 2016. There are no funding issues at the present time.

All contract invoices were submitted on time and in accordance with the terms of contract.

There are no new or pending issues to report.

- *ADAP Program Presentation*

Dr. Javier Romero

Dr. Javier Romero reviewed September 8th report (copy on file). There is no current report because of the changes in the ADAP systems. The State has started its Needs Assessment survey which will run from October to January. The online link for the survey is www.floridaneeds.org. Clients are encouraged to complete the survey online.

The Hepatitis C pilot program is open and is taking both insured and uninsured clients. So far, there are nine applications and five have been approved.

ACA open enrollment has begun. ADAP clients from 100-400% FPL can apply. Currently, there are 1,987 clients in ADAP-734 in market place plans and 1,250 are new (uninsured). Clients who previously could not enroll will be allowed to enroll in ACA plans. The program will ensure that the first binder payment is made so there are no interruptions in coverage. There are still some clients who are having problems with their insurance. United Health is no longer a carrier (7 clients affect).

As of July 1st, CVS-Caremark the pharmacy benefits manager has expanded to national network services. Florida Blue has excluded CVS from its network, but clients can go to Walgreens, using the CVS Caremark card to obtain their prescriptions.

There will also be an expansion of medications on the ADAP formulary taking place, with return of prior opportunistic infections drugs removed several years ago—details on this are forthcoming.

The medication is limited in dose to the 7.5mg hydrocodone bitartrate/200mg ibuprofen combination, restricted to prescription by dentists (DDS or DMD), and a maximum of 50 tablets per prescriptions is allowed.

Dr. Ladner provided an update on the current research projects being conducted by BSR.

1) Medical Case Management study-this will focus on reviewing medical case management working environments, case loads, client acuity and case manager activity to provide suggestions as to how to optimize Medical Case Manager caseloads.

2) Housing study-reviewing housing needs of people in care and working with the Getting to Zero Task Force.
