

Community Presentation on Best Practice for HIV Linkage to Care

The Miami-Dade HIV/AIDS Partnership's Prevention Committee aims to identify and share best practices implemented by Miami-Dade County HIV Testing and Counseling sites for HIV testing and counseling, HIV outreach, HIV linkage to care, and HIV prevention methods. The Committee will host several 20-minute presentations from agencies that were selected by the Committee to give a presentation on best practices.

AIDS Healthcare Foundation (AHF)

Abstract of AHF's Best Practice for HIV Linkage to Care:

AIDS Healthcare Foundation (AHF)'s Linkage to Care Team works closely with clients to provide one on one guidance and support to encourage clients' initiation and longevity of care. The Linkage to Care Team is available 24 hours a day, 7 days a week (bilingual) and meets with clients face to face prior to initial appointment to assess clients' needs and eliminate any barriers to care. Transportation is provided to clients for their first two medical case management appointments. Additionally, the Linkage to Care Team hosts Meet and Greets between clients and medical case managers during the initial medical visit to ensure a smooth transition into the program.
