Dear Ryan White Program Subrecipient:

In an effort to improve tracking and reporting of client health outcomes, this office is implementing a new requirement to obtain viral load lab test results for clients enrolled in the Ryan White Part A/Minority AIDS Initiative (MAI) Program. This is necessary in order to properly monitor and report on changes in the health of our clients as they move along the HIV Care Continuum towards viral suppression. Implementation is also necessary to ensure compliance with federal reporting requirements.

Please see the attached "Viral Load Lab Results Requirement" document for details. The initial roll out begins immediately, and the requirement becomes fully effective March 1, 2017.

If you have questions, please call your Technical Assistance contact at Behavioral Science Research Corporation (BSR), at 305-443-2000; or contact Carla Valle-Schwenk, Program Administrator, by phone at 305-375-3546 or by email at cvalle@miamidade.gov. Thank you for your understanding and cooperation.

Sincerely,

A handwritten signature in blue ink, appearing to read "D. Wall".

Daniel T. Wall
Assistant Director
