January 8, 2018

Greetings Everyone

I trust everyone had a joyous holiday season. We wanted to take this time out to thank all the participating agencies that collaborated with us for our 1st Annual Skating Party that was held at Super Wheels Skating Rink on December 20, 2017.

We sincerely appreciated all those who attended as well as those who compiled lists of those clients attending and those who helped publicize our event. We loved seeing the joy and celebratory mood of those that attended. After informal feedback, we have decided to hold this event again in 2108, possibly twice.

We will be working towards these events later in the year. All parties/agencies will be notified in advance, for those agencies that would like collaborate with us for this event. So, not to worry for those who missed the event or could not attend, there will another opportunity this year to do so. We were honored to have the opportunity to work with our community partners/providers and look forward to doing so again.

In hindsight it was enlightening to see the different populations that came together for our common cause. That mission was to bring a free event that our community that can be joyous, gain useful health information and access to various community resources, know their status and co mingle with those that attended, while giving recognition to National Gay Men's HIV/AIDS Awareness Day.

Sincerely,

Prevention Department of Empower U, Inc
