

Dear Friend,

The International Association of Providers of AIDS Care (IAPAC) and partners aim to inform a global advocacy agenda to improve the quality of life of people living with HIV in cities around the world. Input from people living with HIV is critical.

We invite people living with HIV in 29 cities to complete a 10-minute online survey that will can assist us in better understanding the quality of life issues that impact urban AIDS responses. The 29 cities include:

Amsterdam, Athens, Atlanta, Bamako, Bangkok, Berlin, Brussels, Bucharest, Buenos Aires, Dar es Salaam, Denver, Durban, Geneva, Kingston, Lisbon, Libreville, Madrid, Melbourne, Miami, Montréal, Nairobi, New Orleans, New York City, Oakland, Paris, Rio de Janeiro, Salvador de Bahia, San Francisco, and Santiago.

If you are a person living with HIV residing in any of the above-listed cities, we invite you to participate in our 45-question survey by [clicking here](#). Your name will remain anonymous, but through your input you will have a positive effect on the quality of life of the global community of people living with HIV.

If you are not a person living with HIV, please forward this email to your network to extend the reach of our survey into more communities of people living with HIV in the cities listed above. You may also share the following link with potential survey respondents: [www.fast-trackcities.org/QoL](http://www.fast-trackcities.org/QoL).

**TAKE THE SURVEY**
