

## **HIV Testing Kits & Printing for Community Agencies Serving Minority Populations**

The SE AIDS Education and Training Centers (AETC) at Vanderbilt will **provide HIV testing kits** to any community agency that serves minority populations.

The agency will have to report aggregate data back to the University of Miami in order to report to Vanderbilt and HRSA.

This is a one-time opportunity using carry over monies. All types of HIV tests can be ordered.

**In addition**, SE AETC is offering to **print materials** directed at HIV topics, increasing the capacity of providers to treat HIV and some types of prevention.

Vanderbilt has stock pamphlets that can be ordered easily or community pamphlets may be printed depending on the content.

For anyone interested in test kits or printing, please contact Martia West, University of Miami, (305) 582-2233 or [Mwest2@miami.edu](mailto:Mwest2@miami.edu).
