SPEAKER' BUREAU

Thank you for accepting our invitation to the Speaker's Bureau training. In this training, you will be able to obtain different tools that will help you to deliver your personal story. By telling your personal story, you will be able to inspire others that could relate to what you have encountered or lived through. Within this training, there will be room for networking and collaboration among like-minded individuals. This training is open to the PLWH community (People Living with HIV). We are looking forward to seeing you soon!!

Share Your Story

Obtain tools that will help you tell your story

Network with like-minded individuals

Show us the real YOU!!

Nothing is better than motivation towards passion

To protect, promote & improve the health of all people in Florida through integrated state, county & community efforts.

Rick Scott
Governor

Celeste Philip, MD, MPH
State Surgeon General & Secretary

Vision: To be the **Healthiest State** in the Nation

April 23, 2018

Good afternoon Everyone,

Hope all is well my Name is Carine Brini and I work for the Department of Health in Miami- Dade County as a Peer Coordinator. We are looking for a very skilled community representative from the community to come out and volunteer their time by talking about their HIV/AIDS story. Through an initiative called Speakers Bureau by engaging and telling their story to the community on motivation and encouragement pertaining certain issues such as disclosure, stigma, isolation and guilt due to their status. We are looking for representative throughout Miami -Dade County to help us educate people living in the community that may be affected and effected with the HIV/AIDS epidemic. Getting the PWLHA community involved by telling their story would help with the barriers and assisting client in the community by giving out informative information on new research and various new medication for clients of the PLWHA community and prevention measures for the at high risk community. Please reach out to me by May 15th 2017 so that we can secure space for the individuals

We are looking to launch this initiative by June 5th 2018, and would love to have 10 volunteers that would love to tell their story to the community and help promote the importance of expressing themselves through words. If you or organization should have any person or persons that may want to participate in our Speakers Bureau, it would be a great measure for the community.

As you many know Miami-Dade County is number one in the nation for the highest rates of HIV infection. All in good efforts to educate the community on expressing their feels through words.

Please feel free to contact me at any of the information below this email:
