

Are you interested in improving pharmacy service delivery for persons living with HIV/AIDS in Miami-Dade County? Are you a member of the affected community? Do you have a pharmacy or case management background?

The Miami-Dade HIV/AIDS Partnership has set up a **Local Pharmacy Workgroup** to address pharmacy service delivery issues, by addressing operational issues and by improving coordination among funding sources, case managers and service delivery sites. We have representation from ADAP, from two Ryan White Part A service providers, and from the County. We need a broader base of participation in order in order to make more effective improvements in pharmacy service.

We have openings for persons in the following categories:

- One representative from specific Part A pharmacy providers: CHI, Miami Beach Community Health and Citrus Health Network (total 3)
- General Revenue representative (total 1)
- Medicaid representative (total 1)
- Members of Affected Community (total 3)
- Medical Case Manager (total 1)
- Other persons with an interest in this area (total 2)

This is a Partnership workgroup, which means that in order to qualify for membership, you must (1) be a Miami-Dade County resident and (2) be registered to vote. **If you are interested or have further questions about this workgroup**, please contact Marlen Meizoso at marlen@behavioralscience.com or 305-445-1076, or come to the next workgroup meeting at 10:00 a.m. on Wednesday, May 16, 2018 at the offices of Behavioral Science Research, 2121 Ponce de Leon Blvd., Suite 240, Coral Gables 33134.
