

Ending the HIV Epidemic A Plan for Miami-Dade County

The *Ending the HIV Epidemic: A Plan for America* was announced in February of this year. The new initiative seeks to reduce the number of new HIV infections in the United States by 75 percent within five years, and then by at least 90 percent within 10 years.

Key Strategies of the Plan

The Florida Department of Health in Miami-Dade County is finalizing the Ending the HIV Epidemic plan, that will provide guidance on innovative efforts to reduce the incidence of HIV. Community input is key in order to create a successful plan that is inclusive of the needs of everyone living in Miami-Dade County.

Please visit <https://www.surveymonkey.com/r/EHEMiami> or scan the QR code found below, in order to provide feedback on the strategies and activities to End the HIV Epidemic in Miami-Dade County no later than 3/23/20. If you have any questions or concerns, email Abril.Sarmiento@flhealth.gov.
