A detailed proposal for
doing or achieving
something

Coordination

The Plan will incorporate the goals and objectives of these local, state, and national initiatives to achieve the national HIV goal:

“Reducing the number of new HIV infections in the US by 75% by 2025, and then by at least 90% by 2030.”

2017-2021 Integrated Plan for HIV Prevention and Care

National HIV/AIDS Strategy 2022-2025

Ending the HIV Epidemic Jurisdictional Plan

Getting to Zero and other initiatives

2017-2021 Integrated HIV Prevention and Care Plan

NHAS 2020 GOAL #1: REDUCE NEW HIV INFECTIONS

Strategy P1.1 Increase access to condoms by HIV positive persons and HIV-vulnerable populations, including but not limited to injection drug users (IDU), Trans-identified persons, gay and bisexual men

Yearly Number of Condoms Distributed 2017-2020

NHAS 2020 Goal #2: Increase Access to Care & Improve Health Outcomes for People with HIV

RETENTION IN CARE

Strategy R1.1 Identify RWP client target populations who are at greatest risk for dropping out of care.

ACTIVITY R1.1b
Identify RWP client demographic characteristics (ethnicity, gender, age) and risk factor(s) associated with low RIC rates and track RIC rates by demographic and risk factor groups across and within subrecipients.

RWP MCM CLIENTS RETAINED IN CARE BY ETHNICITY GROUP TOTALS (DESCENDING ORDER BY % RIC)

Ethnicity	CY 2019		CY 2020	
	Total N	% RIC	Total N	% RIC
All RWP MCM Clients	6,879	86.0%	7,199	75.7%
Hispanic	4,058	88.9%	4,492	78.6%
Haitian	823	86.0%	721	76.8%
White, non-Hispanic	460	82.4%	521	71.0%
African American/Black	1,503	79.3%	1,425	68.2%
Other	35	88.6%	40	64.5%

The 2022-2026 Plan will build off the existing 2017-2021 Plan, which develops and monitors

to achieve the goals of the
National HIV/AIDS Strategy

National HIV/AIDS Strategy

The 2022-2025 NHAS

The Strategy focuses on four goals:

Goal 1: Prevent New HIV Infections.

Goal 2: Improve HIV-Related Health Outcomes of People with HIV.

Goal 3: Reduce HIV-Related Disparities and Health Inequities.

Goal 4: Achieve Integrated, Coordinated Efforts That Address the HIV Epidemic Among All Partners.

These are the goals which define the outline for the Integrated Plan.

NATIONAL HIV/AIDS STRATEGY
WHAT YOU NEED TO KNOW

The National HIV/AIDS Strategy provides the framework and direction for the Administration's policies, research, programs, and planning for 2022–2025 to lead us toward ending the HIV epidemic in the United States by 2030.

The Strategy reflects President Biden's commitment to accelerate and strengthen our national response to ending the HIV epidemic. It details principles and priorities to guide our collective national work to address HIV in the United States over the next four years.

It is a national plan designed to re-energize a whole-of-society response to the HIV epidemic that accelerates efforts while supporting people with HIV and reducing HIV-associated morbidity and mortality.

★★★★★

The Updated NHAS

- Recognizes racism as a serious public health threat that directly affects the well-being of millions of Americans, acknowledges ways in which it drives and affects HIV outcomes, and highlights numerous opportunities to intervene to eliminate the HIV-related disparities that result and pursue equity in our national HIV response.**
- Underscores the vital role that the Affordable Care Act (ACA) plays in our response to HIV and calls for maximizing use of services available through Marketplace and Medicaid coverage because of the ACA.**
- Expands discussion of populations with or experiencing risk for HIV, whose unique circumstances warrant specific attention and tailored services, such as immigrants, individuals with disabilities, justice-involved individuals, older adults, people experiencing housing instability or homelessness, and sex workers.**
- Adds a new focus on the needs of the growing population of people with HIV who are aging.**
- Enhances a focus on quality of life for people with HIV.**
- Strengthens emphasis on the importance of better integrating responses to the intersection of HIV, viral hepatitis, STIs, and substance use and mental health disorders.**
- Calls for expanding engagement opportunities for people with lived experience in the research, planning, delivery, assessment, and improvement of HIV prevention, testing, and care services.**

Expands the focus on addressing the social determinants of health that influence an individual's HIV risk or outcomes.

Incorporates the latest data on HIV incidence, prevalence, and trends.

Adds a new focus on opportunities to engage the private sector in novel and important ways in the nation's work to end the HIV epidemic.

Strategy Vision

...es will be a place where new HIV infections are y person knows their status, and every person with ally care and treatment, lives free from stigma and and can achieve their full potential for health and as the life span.

...ies all people, regardless of age, sex, gender orientation, race, ethnicity, religion, disability, tion, or socioeconomic circumstances.

Priority Populations

- Gay, bisexual, and other men who have sex with men, in particular Black, Latino, and American Indian/Alaska Native men
- Black women
- Transgender women
- Youth aged 13–24 years
- People who inject drugs

Ending the HIV Epidemic

EHE

The Ending the HIV Epidemic Plan addresses four pillars toward achieving the 90% reduction in new HIV cases by 2030:

Pillar 1: Diagnose

Pillar 2: Treat

Pillar 3: Prevent

Pillar 4: Respond

Activities outlined into the EHE Plan will be incorporated into the Integrated Plan.

Ending the HIV Epidemic: A Plan for America

The U.S. Department of Health and Human Services (HHS) has launched Ending the HIV Epidemic: A Plan for America. The cross-agency initiative leverages critical scientific advances in HIV prevention, diagnosis, treatment, and outbreak response by coordinating the highly successful programs, resources, and infrastructure of many HHS agencies and offices.

GOAL: HHS will work with each community to establish local teams on the ground to tailor and implement strategies to:

- reaching **75%** reduction in new HIV infections by 2025 and at least **90%** reduction by 2030.
- Diagnose** all people with HIV as early as possible after infection.
- Treat** the infection rapidly and effectively to achieve sustained viral suppression.
- Prevent** new HIV transmissions by using proven interventions, including pre-exposure prophylaxis (PrEP) and syringe services programs (SSPs).
- Respond** quickly to potential HIV outbreaks to get needed prevention and treatment services to people who need them.

Getting to Zero and Other Local Initiatives

Resources and data collected for Getting to Zero, Fast Track Cities, Test Miami, and other local initiatives will also be considered in Integrated Planning.

Links to all these resources are online at <http://aidsnet.org/meeting-documents/>

www.aidsnet.org

GETTING 2 ZERO

The Initiative

The Miami-Dade County "Getting to Zero" HIV/AIDS initiative established a set of recommendations focusing on prevention, treatment, and systems change. The process enhanced services, built partnerships, and established collaborations. In the time period, since publication of the Task Force report, the responsible agencies have been working to expand successful strategies and implement new practices. In moving forward, the HIV response is still confronted by a number of challenges and it will take the collective impact of our elected officials and our community to identify solutions for the achievement of getting to zero. To save the greatest number of lives possible and prevent further HIV transmission, we must know our local epidemic and focus our efforts on key populations at greater risk.

HELP US GET 2 ZERO

- Know the Facts**
Protect Yourself
To educate the community about HIV/AIDS prevention and de-stigmatize persons living with HIV/AIDS.
- Get Tested**
Know Your Status
Encourage Miami-Dade County residents to know their status and expand routine testing in the health care system.
- Get Treated**
Stay Healthy
Create a seamless network of care and ensuring high quality of care throughout the county for people living with HIV/AIDS to achieve viral suppression.

MAKE HIV HISTORY

4/3/2018 2

Deadlines and Responsible Parties

- The final Integrated Plan is due to the Centers for Disease Control and Prevention and HIV/AIDS Bureau of the Health Resources and Services Administration by December 9, 2022.
- Jurisdictions have the option to submit The Plan as an:
 1. Integrated state/city prevention and care plan;
 2. Integrated state-only prevention and care plan; and/or
 3. Integrated city-only prevention and care plan.
- Behavioral Science Research Corp., the Miami-Dade County Office of Management and Budget, and the Florida Department of Health-Miami-Dade County, working with the Partnership's Strategic planning and Prevention Committees, are tasked with completing The Plan.

Section I

Executive Summary

- The Plan will include:
 1. How the Statewide Coordinated Statement of Need (SCSN) is addressed:
 - Goal 1: Prevent New HIV Infections
 - Goal 2: Improve HIV-Related Health Outcomes of People with HIV
 - Goal 3: Reduce HIV-Related Disparities and Health Inequities
 - Goal 4: Coordination of Stakeholders
 2. The approach we used in developing the Plan:
 - Updating the existing Plan by:
 - Developing new goals, and
 - Building on existing strengths.
 - Incorporating NHAS, EHE, and other community initiatives.

Section II

Community Engagement and Planning Process

- The Plan will describe:
 - Our approach to the planning process;
 - How we engaged community members and stakeholders in development of the Plan; and
 - How we fulfilled legislative and programmatic requirements (SCSN, RWHAP Part A and B planning requirements, and CDC planning requirements).
- **How you can be involved in Community Engagement and Planning**
 - Ensure at least one member of your staff is a voting member of the Strategic Planning Committee or Prevention Committee; and
 - Encourage RWP clients to be involved as members, in focus groups, via surveys, and other opportunities.

Section III

Contributing Data Sets and Assessments

- The Plan will:
 - Analyze qualitative and quantitative data and its impact on HIV in our community;
 - Determine prevention and care and treatment service needs;
 - Identify barriers for clients accessing those services; and
 - Assess gaps in service delivery.
- **How you can be involved in Contributing Data Sets and Assessments**
 - Respond promptly to data requests; and
 - Promote the Community Coalition Roundtable Luncheons as a place for clients to share barriers to care and work toward solutions.

Section IV

Situational Analysis

- The Plan will provide:
 - An overview of strengths, challenges, and identified needs with respect to several key aspects of HIV prevention and care activities; and
 - A snapshot of the Community Engagement and Planning Process and the Contributing Data sets and Assessments.

Section V

2022-2026 Goals and Objectives

- The Plan will detail goals and objectives for the next 5 years (2022-2026)
- Goals and objectives are already in process and should be reviewed to ensure they reflect strategies for a unified, coordinated approach for all HIV prevention and care funding.
- Goals and objectives are currently based on the SCSN and should also incorporate the four Ending the HIV Epidemic pillars: Diagnose; Treat; Prevent; and Respond.
- **How you can be involved in Goal Setting**
 - Become familiar with the current Integrated Plan and EHE Jurisdictional Plan and offer feedback;
 - Review drafts throughout the year; and
 - Share your feedback at meetings (as a member or guest).

Section VI

Implementation, Monitoring & Jurisdictional Follow Up

- The Plan will:
 - Describe the infrastructure, procedures, tools, etc. we expect to use to achieve the Plan goals.
 - Detail the path for successful goal completion, including:
 1. Implementation
 2. Monitoring
 3. Evaluation
 4. Improvement
 5. Reporting and Dissemination

Section VII

Letters of Concurrence

The Letter of Concurrence will be signed by the Chair of the Miami-Dade HIV/AIDS Partnership – the official Ryan White Program Planning Council – and will specify the Partnership’s involvement, including input from community stakeholders, specifically members of the Strategic Planning and Prevention Committees.

www.aidsnet.org

Conclusion

- The complete IP Guidance, NHAS, and other reference documents are online at <http://aidsnet.org/meeting-documents/>.
- All meetings of the Strategic Planning Committee and Prevention Committee are open to the public. You, your staff, and your clients are encouraged to join and participate in planning. You are also invited to attend meetings as a guest.

Please contact Christina Bontempo, Project Manager/Community Liaison, cbontempo@behavioralscience.com, or (305) 445-1076, for more information.

Thank you!
