

ABOUT US

INSTACARE is a research program that brings the support of a Community Health Worker (CHW) to your clinical team to help patients better manage their HIV.

CHWs are like a bridge between the healthcare system and the community. Our job is to help patients receive care, support access to social services, and assist in overcoming barriers to health and wellness.

CONTACT US :

Talk to your doctor today for a referral to INSTACARE or give us a call for more information.

INSTACARE

There for you in an instant.

It's time to start **LIVING POSITIVELY**

- 18 years or older
- Black/African American
- Jackson Health System patient
- Have an unsuppressed HIV viral load (> 200 copies/ml)

1 YEAR

OF SUPPORT MADE JUST FOR YOU

We're here to help patients navigate the healthcare system. Together, we'll create a plan designed to help you achieve a happier, healthier life.

OUR SERVICES

INSTACARE provides patients with 12-months of CHW support. During this time, participants will complete:

- telephone interviews
- online questionnaires
- 5 clinic visits
- regular meetings with a CHW

Participants can receive up to \$400 for their participation in the study.
