

## Hepatitis Delta (HDV) – Online Panel

We at LaGrippe Research are conducting a study on the experiences of people with **Hepatitis Delta Virus (HDV)**. We would like to speak with people with Hepatitis D in the **USA** to discuss their experience with the disease so we can learn what life is like living with the virus. The study is an online community, with monthly tasks – this could be anything from introducing yourself, to answering questions on a particular topic or looking at some information and telling us what you think about it. If interested, participants can also interact anonymously with others to discuss defined topics around Hepatitis D. If you can't get online, don't worry we still want to hear from you – just get in touch. Each month you would need 1 hour - We appreciate the time invested and for this reason we offer an incentive of \$125/month. Your responses will remain anonymous and be kept confidential. Your feedback will be used by our sponsor on how they can help HDV patients now and in the future.

**Topic:** Hepatitis D/Delta (HDV)

**Target:** Must live in the USA

**Dates:** 6-month online panel

**Length:** 1 hour a month, at a time convenient to you

**Compensation:** \$125 per month

**Location:** Online platform – Recollective

**If you are interested, please fill out our preliminary questions online here:**

<https://www.surveymonkey.com/r/ZRXKSRK>

Once the preliminary survey is completed, we will review and follow up with you regarding your eligibility and next steps.

If you have any questions, please contact Maggie. We look forward to hearing from you!
