Motion to approve the minutes of June 9, 2023, as presented.

VII. Reports

Membership

Staff advised that the Partnership is in the process of considering a change to the Ordinance to reduce member positions from 39 to 29 members. This will reduce the number of vacancies for Ryan White Program (RWP) clients, that still need to be filled.

Members discussed some ideas for recruitment and how to advocate for people with HIV. A flyer with a QR code directing interested parties to the Partnership's website or a membership survey should be produced and distributed to agencies. Staff will be conducting follow up interviews with clients who complete the annual Client Satisfaction Survey and indicate their interest in serving on the board.

Incentives are limited by Health Resources and Services Administration (HRSA) rules; locally people with HIV who are not affiliated with a RWP-funded subrecipient receive \$10 vouchers for each meeting attended. Per HRSA, no funds may be spent on transportation reimbursement.

Note: The Ordinance change proposal approved by the Partnership will reduce the Partnership membership to 30 members.

Partnership Report to Committees

Mr. Goldberg read highlights of the July 2023 Partnership meeting into the record. The complete motions report is posted for review.

VIII. Standing Business

■ FY 2022-2023 Assessment of the RWP Recipient Administrative Mechanism – Update

Staff advised survey collection is in progress and the report will be brought to the next meeting.

Review 2022 Annual Report Draft Revisions

Staff received feedback from the Recipient on suggested changes to the 2022 Annual Report draft. Members considered those suggestions and reviewed the draft, noting additional updates. The draft is expected to be finalized at the next meeting.

Final 2022 Annual Report updates:

- □ Inside page
 - Indicate, "... Latinx, of any race."
- □ Page 1
 - Change to "One out of every 97 people in Miami-Dade had HIV in 2021." Remove language around "HIV positive" referring to people.
 - Discussion around transgender numbers since there is only one transgender, "American Indian/Alaska Native, Asian/Pacific Islander and Multi-race," person indicated which might serve to identify a specific person. However, since there is no other identifying information, the number is okay.
- □ Page 2
 - Make sure the colors on the map copy properly since the blue and green look very similar in some of the meeting copies.
- □ Page 3
 - Remove "new and existing" from opening statement.
 - Discussion over category, "Mother with or at Risk of HIV"; category will remain as is.
- □ Page 4
 - Use a regular font for the numbers.
 - Change language to, "RWP clients in care who were over age 50 and aging into Medicare."
 - Correct typo, "In additional . . ." should be, "In addition"; left align the statement.
 - Make text format consistent throughout the page.
 - Change subtitle to, "People with HIV Experiencing Homelessness" since we don't have numbers on "unstably housed."
 - Simplify language to refer to RWP client in care.
- □ Page 5
 - Include hyperlinks to the Integrated Plan and the Partnership website.
 - Remove Medicare from community partners.
 - Update FDOH-MDC to include the number of positive tests.
- □ Page 6
 - Change, "... expand HIV prevention and treatment activities ..." to "... expand HIV prevention, treatment, and support service activities ..."

 - Abbreviate FOCUS partners to number of sites for a more impactful, less wordy look; add Gilead Science reference.

Infectious Disease Elimination Act

HIV transmission via injection drug use was mitigated by the Infectious Disease Elimination Act - IDEA Exchange, an innovative Syringe Services Program (SSP), which started in December 2016 in Miami-Dade County and has become a statewide SSP model.

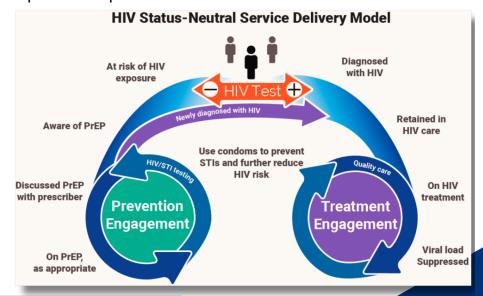

No Babies Born with HIV

For the fourth year in a row (2019-2022), **no babies were born** with HIV to HIV positive mothers in Miami-Dade County, due in large part to the initiatives funded by the Ryan White Program Part D at University of Miami – Miller School of Medicine, Dept. of Obstetrics, Gynecology & Reproductive Sciences.

HIV Status Neutral Service Delivery Model

The MDC Integrated Plan includes activities to promote the CDC-recommended HIV Status Neutral Service Delivery Model, where HIV testing serves as an entry point to services regardless of a positive or negative HIV result, to improve HIV prevention and care outcomes.

Everyone has a role in ending the HIV epidemic!

Assessment of the Ryan White Program Recipient Administrative Mechanism March 1, 2022 – February 28, 2023

Prepared September 8, 2023

Behavioral Science Research Corporation

2121 Ponce de Leon Boulevard, Suite 240 Coral Gables, FL 33134 hiv-aidsinfo@behavioralscience.com

Prepared by Behavioral Science Research Corporation for the Miami-Dade County Office of Management and Budget-Grants Coordination and the Miami-Dade HIV/AIDS Partnership. This publication is supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) under the grant number H89HA00005, CFDA #93.914 – HIV Emergency Relief Project Grants, as part of a Fiscal Year 2023 award totaling \$27,558,848 as of March 29, 2023, with 0% financed with non-governmental sources. The contents are those of the author(s) and do not necessarily represent the official views of, nor an endorsement by, HRSA, HHS or the U.S. government.

INTRODUCTION

The Assessment of the Recipient Administrative Mechanism (AAM) is a Ryan White Part A/Minority AIDS Initiative (MAI) Program legislative requirement and responsibility of the local Ryan White Planning Council, the Miami-Dade HIV/AIDS Partnership (the Partnership). Aggregated responses are used to evaluate the performance of the Eligible Metropolitan Area (EMA)'s Recipient, the Miami-Dade County Office of Management and Budget-Grants Coordination. Selected responses are included in the annual Ryan White Part A/MAI Program grant application and non-competing continuation reports. All data and reports are submitted to the Recipient without information that would identify any Partnership member or Part A/MAI subrecipient as the respondent.

The Partnership's Strategic Planning Committee reviewed this draft report at their September 8, 2023 meeting. The Recipient was also given the opportunity to further review and respond to survey results and comments following the meeting and prior to final review of the report. This provides a more thoughtful and comprehensive response to areas of concern identified from the survey results. Those responses were incorporated into the final version of this report.

Results of the surveys will provide data on Recipient performance for the annual Ryan White Program non-competing continuation reports, and will guide improvements in planning council administration.

For questions or clarification, please contact Behavioral Science Research Corp.: Robert Ladner, rladner@behavioralscience.com, or Christina Bontempo, cbontempo@behavioralscience.com.

Special thanks to all those who made this report possible: Strategic Planning Committee Members for survey design and review of this report; Miami-Dade HIV/AIDS Partnership Members and Miami-Dade County Ryan White Program Part A/MAI Subrecipients for survey responses; and the Recipient for review and feedback.

METHODOLOGY

Two versions of the AAM surveys have been developed and refined over the history of this activity. One survey is administered to Partnership members; and one survey is administered to subrecipients. The surveys were drafted by Behavioral Science Research Corp (BSR), with input from the Strategic Planning Committee. They were formatted in Survey Monkey, and distributed variously as a URL, QR code, or paper copy. Both versions were self-administered, and programmed so that if a respondent was unable to complete the survey in one sitting, the respondent could pause in taking the survey, save the partially completed survey, and return to it later. Both surveys allowed respondents to make comments on each question and to make general comments unrelated to specific questions at the end of the survey.

The Partnership survey was distributed at the May 15, 2023 general meeting, and was available online via URL or QR code. Instructions were emailed to each subrecipient. All respondents were given more than two weeks to complete the survey. Subrecipients who were also serving as Partnership members were instructed to complete both the Subrecipient and the Partnership surveys.

The Partnership member survey:

- 1. Evaluated how well the Recipient responds to the funding priorities and directives set by the Partnership;
- 2. Evaluated whether the Recipient disburses Part A and Minority AIDS Initiative (MAI) funds to Ryan White Program service providers (subrecipients) in a timely manner consistent with Partnership recommendations;
- 3. Evaluated the overall performance of the Recipient and the administrative subrecipient; and
- 4. Allowed for open-ended comments and suggestions.

Subrecipient surveys were emailed directly to one or more representatives at each subrecipient organization. Their version allowed for more than one respondent from the subrecipient organization to answer, if appropriate, and record his/her name(s) as co-respondents.

The subrecipient survey:

- 1. Evaluated whether the Recipient disburses Part A and Minority AIDS Initiative (MAI) funds to Ryan White Program service providers (subrecipients) in a timely manner, consistent with Partnership recommendations;
- 2. Evaluated how the Recipient manages contracts with Ryan White Program Part A/MAI subrecipients;
- 3. Evaluated the overall performance of the Recipient and the administrative/clinical quality management subrecipient;
- 4. Evaluated the Provide Enterprise Miami® (PE-Miami) client database system; and
- 5. Allowed for open-ended comments and suggestions.

COMPARATIVE ANALYSIS OF AAM RESULTS, 2018-2021 AND 2023

Behavioral Science Research Corp. (BSR) staff historically has provided the Recipient and the Partnership a five-year longitudinal analysis of the AAM results to identify ongoing challenges, if any, and to document progress made toward improving the administrative agent's functions. This report contains data from the 2018, 2019, 2020, 2021, and 2023 AAM surveys. In FY 2021-2022, no survey was distributed because the Strategic Planning Committee, the Partnership, and the Recipient were solely focused on development of the 2022-2026 Integrated HIV Prevention and Care Plan, and on meeting the Plan submission deadline.

Surveys from 2018-2020 evaluated the responses of 13 subrecipients, the total number of contracted subrecipients at that time. Surveys in 2021 and 2023 evaluated the responses of 16 subrecipients, the total number of contracted subrecipients at that time. Note that Care Resource reported both for Care Resource and Food for Life Network. All results are reported by percentages, separated by reporting year.

Partnership response has varied year to year based on the number of active members on the roster. In 2023, 19 active Partnership members completed the survey. All results are reported by percentages, separated by reporting year.

Survey questions related to the COVID-19 response were dropped from this year's surveys and those questions are no longer being tracked.
