- 16) Florida City
- 17) Naranja Lake CRA
- 18) NW 7<sup>th</sup> Avenue Corridor
- 19) NW 79<sup>th</sup> Street Corridor
- 20) West Perrine CRA

## **Community Revopement Authorities (CRAs) excerpts**

Authorized local governments to establish CRAs to revitalize areas designated as slum and blight.

Primary community redevelopment objectives as defined by legislation include:

- To address the physical, social and economic problems associated with slum and blighted areas.
- To encourage local government to improve the physical environment (i.e. buildings, streets, parks, utilities) through rehabilitation, conservation or clearance/rehabilitation.
- To convey local community redevelopment agencies the power to expend public funds as a means to improve slum and blighted areas.
- To enhance the tax base in the redevelopment areas by encouraging private investment through channeling of tax increment revenues into public improvements within the designated areas.
- To eliminate substandard housing conditions and to provide adequate housing to residents of low or moderate income, particularly the elderly.

Traditional projects include:

- Streetscapes and roadway improvements
- Building renovations
- New building construction
- Flood control initiatives
- Water and sewer improvements
- Parking lots and garages
- Neighborhood parks
- Sidewalks and street tree plantings
