VII. Reports

▪ **Ryan White Program**

Ana Nieto for Carla Valle-Schwenk

Ana Nieto reviewed the Ryan White Program (RWP) expenditures and clients served to date as of the end of February. As of the January report (printed 2/26/25), the RWP has served 9,199 unduplicated clients. All contracts have been executed, and billing is being processed. Work on Ryan White HIV/AIDS Program Services Report (RSR) is in progress. All RWP subrecipient site visits have been completed, and compliance reports are in progress and should be shared by May. RWP award letters have been sent out to subrecipients.

Carla Valle-Schwenk stated that the Health Resources and Service Administration (HRSA) project officer has indicated that all materials including documents, the website, and contracts must comply with executive orders. Clients are encouraged to use telehealth if they do not feel comfortable going into the office and the ADAP program provides a 90-day supply of medications. Hormone therapy will no longer be included in allowable services.

▪ **AIDS Drug Assistance Program (ADAP)**

Dr. Javier Romero

Dr. Javier Romero reviewed the January 2025 ADAP report as of February 3, 2025, including enrollments, expenditures, prescriptions, premium payments, and program updates. Dr. Javier Romero indicated 2,907 clients are enrolled in Affordable Care Act (ACA) plans. There were 30 clients who enrolled in unapproved plans. As a reminder, clients have the option to pick up their medications where they choose.

▪ **Vacancy Report**

Marlen Meizoso

Mrs. Meizoso referenced the February vacancy report indicating several vacancies on the Subcommittee and on the Partnership. There is an interested physician candidate who has submitted an application but is sorting out scheduling and hopes to attend the next meeting. If anyone knows of any additional individuals interested in membership, they may contact staff, invite them to attend a meeting, or invite them to the next New Member Orientation.

VIII. Standing Business

▪ Oral Health Care Items: Service Descriptions

All

At the last meeting there was a request for data on how many clients exceeded the \$6,500 Oral Health Care (OHC) expenditure limit in order to estimate the potential impact of reinstating a spending cap. In FY 2023, 34 clients exceeded the \$6,500 cap for OHC. The average cost per client was \$1,341.82. In FY 2022, 19 clients exceeded the \$6,500 cap for OHC. The average cost per client was \$1,272.78. Most of the overages are for dentures, crowns, and pontics. The Subcommittee agreed to reinstate the cap and keep the language for possible overrides as written.

Motion to approve the Oral Health Care service description as presented.

Moved: Dr. Lawrence Friedman

Seconded: Cristhian Ysea

Motion: Passed

▪ Minimum Primary Medical Care Standards

All

Staff provided the Subcommittee with red-lined and clean versions of the Minimum Primary Medical Care Standards which were updated to IDSA recommendations. The following edits were suggested:

- ☐ Add, “at a minimum” to last statement regarding testing every 6 months and add at the end of the statement, “or more frequently as medically needed”;
- ☐ Add an asterisk * and place disclaimer, “Subject to change to be in compliance with EXECUTIVE ORDERS. These standards are current as of xx/xx/xx”;
- ☐ On page 9, number 23, add, “still” to statement, “but is necessary...”;
- ☐ On page 9, number 30, change “indicate” to “indicated”; and
- ☐ On page 10, number 38, strike, “For” and start with, “All”.

It was suggested that as part of the RWP contract language and auditing process, clinicians should review and sign the document to indicate they have read it, and that a file copy should be kept in the personnel files for potential auditing purposes.

Motion to approve the Minimum Primary Medical Care Standards as discussed.

Moved: Juliet Miller

Seconded: Dr. Lawrence Friedman

Motion: Passed

Subcommittee members were reminded to complete the annual Source of Income disclosures in their meeting packets and return them to staff. All filings of the Source of Income Statement must be completed by the July 1, 2025, deadline.

**MIAMI-DADE COUNTY RYAN WHITE PROGRAM
ALLOWABLE MEDICAL CONDITIONS LIST**

These conditions are related to or exacerbated by HIV, comorbidities related to HIV, or complications of HIV treatment.

Conditions listed may be accessible under multiple specialties though not specifically referenced.

*This list is intended to address the federal Health Resources and Services Administration's requirement that services provided through outpatient medical care be related to an individual's HIV status. **This list is not exhaustive and is a sample guideline created to assist medical providers with specialty care referrals and to emphasize the importance of documenting the link between an individual's HIV status and the specialty care service to which a client is referred.***

Routine medical diagnostic testing (e.g., Pap smear, mammogram, bone density test, colonoscopy, colorectal cancer screening, optometry or ophthalmologic screening for eye health, etc.) is allowable as long as such testing follows established medical guidelines, such as U.S. Public Health Service (PHS), American Medical Association, Health Resources and Services Administration (HRSA), or other local guidelines, as a standard of care. Please see the most current, local Ryan White Program Service Delivery Manual for more information.

Project A *comments* from **EXECUTIVE COMMITTEE:**

- Option 1: Reflects the Medical Care Subcommittee's original request for six focus groups in three languages, one set for individuals 50 years and older to address general aging issues and the second set for individuals 64½ years old to discuss Medicare transitioning issues.
- Two alternate survey options were also reviewed. The highest cost is for recruitment since medical case managers/peers cannot recruit unless it is a quality improvement activity.
- Focus groups are not the most efficient ways to get information. The Committee had questions as to why the Medical Care Subcommittee had selected these two groups to be surveyed. The 55 and older group in the client satisfaction survey has the highest satisfaction levels. The groups should be tied to Integrated Plan goals.

The Executive Committee felt that more clarity was needed, and the Subcommittee should further examine the issue for next year's proposal.
